With Certified EFT Trainer

Dr. Rebecca Jorgensen

Develop Skills  
Experience the Model  
Review - Practice - Learn

The EFT Core Skills Advanced Training focuses on the development and refinement of the core skills needed in the EFT approach to healing couple distress. Each session is designed for a small group of participants (12-16) to explore and refine the primary skills used in the EFT model. This workshop integrates clinical theory and practice. A range of learning approaches are used, including:

- practical instruction • experiential exercises • video examples • case consultation.

Organized and supported by:

New Zealand Community for  
Emotionally Focused Therapy
